

An efficient way to learn a language is to try to recall vocab words and expressions that you have seen earlier in class. Follow the strategy below when you complete your homework to become a better learner.

### Strategy:

1. **Read** through all the sentences (1-10) and the reminders.
2. Before writing anything down, **highlight** the keywords you can't recall from memory.
3. Look through your book to **find** them and write them down on a piece of paper.
4. **Look up** any other words you couldn't find using an online dictionary.
5. Hide the piece of paper and write down the translation for the sentences.
6. Always try to **challenge yourself** and complete the two flags or three flags activities if you can.
7. **Check** your work carefully using your draft paper and your book and correct your spelling if necessary.

#### Reminders:

- Don't forget that adjectives have different forms depending on the gender of the noun!
- more... than = plus... que

### Translation from English to French
